

Pusch Ridge's **RenWeb School Management Software** gives you, the busy parent, an opportunity to get more involved in your child's academic progress and future success – all via the Internet!

**RenWeb ParentsWeb** is a private and secure website set up for our school to allow you to access school information about your child. You can view your child's schedule, grades, attendance, homework, conduct and other useful information. You can also communicate with teachers and other school staff online whenever necessary. All you need is an Internet-capable computer and a correct email address on file at the school (see below).

Here's how to access our easy-to-use **RenWeb ParentsWeb**:

- Go to Internet Explorer and type in the address [www.renweb.com](http://www.renweb.com).
- Click on "ParentsWeb Login" in the red box.
- Log in as follows:
  1. Type in "PRCA-AZ" for your School ID. (lower case is ok)
  2. Click "Submit"
  3. Choose the "First Time Users Tab"
  4. Type in the email address that you provided to the school. If the address you type in does not register with RenWeb, please call the school to see what email address we have for you in our RenWeb database.
    - Click "New Parent Login" if you have not logged into RenWeb before.
    - You will be emailed a new password within 24 hours (to the email address you typed in, which must be the same email address that you provided to the school).
  5. Once you have received your password, return to RenWeb and follow the first 4 steps.
  6. Type in the password assigned.
- You will find classroom information under the Student Information tab on the left side. This is also where you can find Homework, Lesson Plan, Schedule, etc. Note that if you have more than one child at PRCA (and/or CCA), all children will have their own tabs.
- You can access other school information regarding your child on this site, as well as email the teachers directly.

Please call us if you have any questions or concerns. We look forward to your involvement and participation in ParentWeb. By utilizing this software program and working alongside you and your child, we strive to enhance your child's academic development as well as communication between school and home. Thank you for your participation as we partner together in your child's education!

Sincerely,
